

Environmental Statement

Criosu Controls actively strives to protect the environment. The company was established in order to design and manufacture state of the art heating control systems that maximize energy efficiency yielding significant reductions in carbon emissions. All Comeragh Controls employees are made aware of their responsibility with respect to the environment in accordance the company's quality control systems. Our products and operations demonstrate our social responsibility to the environment.

Michael Carey
Managing Director
Criosu Controls Limited

Environmental Strategy of Comeragh Controls

Environmental, Quality and Safety Policy is an integrated part of our company strategy. Environmental responsibility is an important element which is taken into consideration in all of our business activities. Our goal is to reduce our business impact on environment. Our operations employ the principles of continuous improvement.

ISO 14001 Environmental Management

Comeragh Controls utilizes manufacturing subcontractors who are ISO 14001 compliant. ISO 14001 details the requirements for an environmental management system. This standard covers the following

- Implement, maintain and improve an environmental management system
- Conformance with the stated environmental policy
- Demonstrate conformance
- Ensure compliance with environmental laws and regulations
- Seek certification of its environmental management system by an external third party organization
- Make a self-determination of conformance

Production

In our manufacturing process we make every effort to search ways of gradually minimizing production influences on the environment, adhering to all government regulations.

Emissions are reduced through investments in innovative technology and we continuously reduce the output of production waste.

One important philosophy entrenched with Comeragh Controls is the weigh given to the protection of human beings and environment above the economic element of production. We believe that a healthy environment is not only complementary, but critical to a healthy business.

Raw Materials and Energy

We endeavour to continuously decrease consumption of raw materials and energy by optimising production processes. All sub component parts where possible are sourced locally.

Additionally, where possible all subcontract manufacturing process are select on local bases.

We consider economical as well as environmental aspects during selection of raw materials and sources for our production. The goal of development processes and a constant improvement of all manufacturing is a minimizing impact of our activities to environment.

Waste Management

Comeragh Controls complies with the Waste Electrical and Electronic Directive (WEEE) law in Ireland. The WEEE Directive 2002/96/EC is an EU Directive founded on the principle of "Producer Responsibility" and within Comeragh Controls our object in this area is to prevent waste of electrical and electronic equipment (WEEE) and to promote the reuse, recycling and recovery of such wastes. Our aims to reduce the waste arising from electrical and electronic equipment and to improve the environmental performance involved in the life cycle of these products. Comeragh Controls accept returns of our manufactured products. The cost of shipping is the responsibility of the customer.

Products

Our products create an energy-efficient environment for our customers. The design and operation of our systems conserves vital natural resources and as a result, make a significant positive impact on the environment. All our products are designed to save energy, reduce home heating and cooling costs, and keep homes comfortable through efficient use of energy.

We confirm that products manufactured by Comeragh Controls comply with the requirements of the RoHS Directive (2002/95/EC). The concentration level of any hazardous substance within homogenous material conforms to the directive.

Management and Employees

We constantly improve management systems in all our activates to reduce the environmental impact within our organisation

Environmental concerns are an integral part of our business goals.

Our employees are acquainted with the environmental goals and requirements of Comeragh Controls.

We aim to strengthen our employees' individual responsibility for their own actions and behaviour. Our employees indentify with our core values and actively strive to implement them.
